The **GB808 SERIES** High Production Power Unit is a portable power source designed to power a wide range of pneudraulic installation tools for millions of cycles. The unit is air powered and air actuated. The actuator on the installation tool remotely controls the hydraulic fluids directional flow. Installation tool (sold separately) includes Nose Assembly, Cylinder Head Assembly, Split Handle Assembly and 8' Hose Assembly with quick disconnects. The GB808 when combined with the appropriate split handle assembly will pull most blind rivets thru 1/4". Please consult Gage Bilt Inc. for specific applications.

The **GB808** is designed to power the following tools (sold separately):

GB703SHA	GBP734SHA	GB743SHA
GB703SHAV	GBP734SHAV	GB743SHAV
GB703SHAVT	GBP734SHAVT	GB743SHAVT
